Our Co-extruded composite decking is slip and splinter resistant. While ensuring safety, every board is manufactured with anti-microbial properties which ensures a hygienic surface.

Co-extruded WPC

Co-extruded WPC

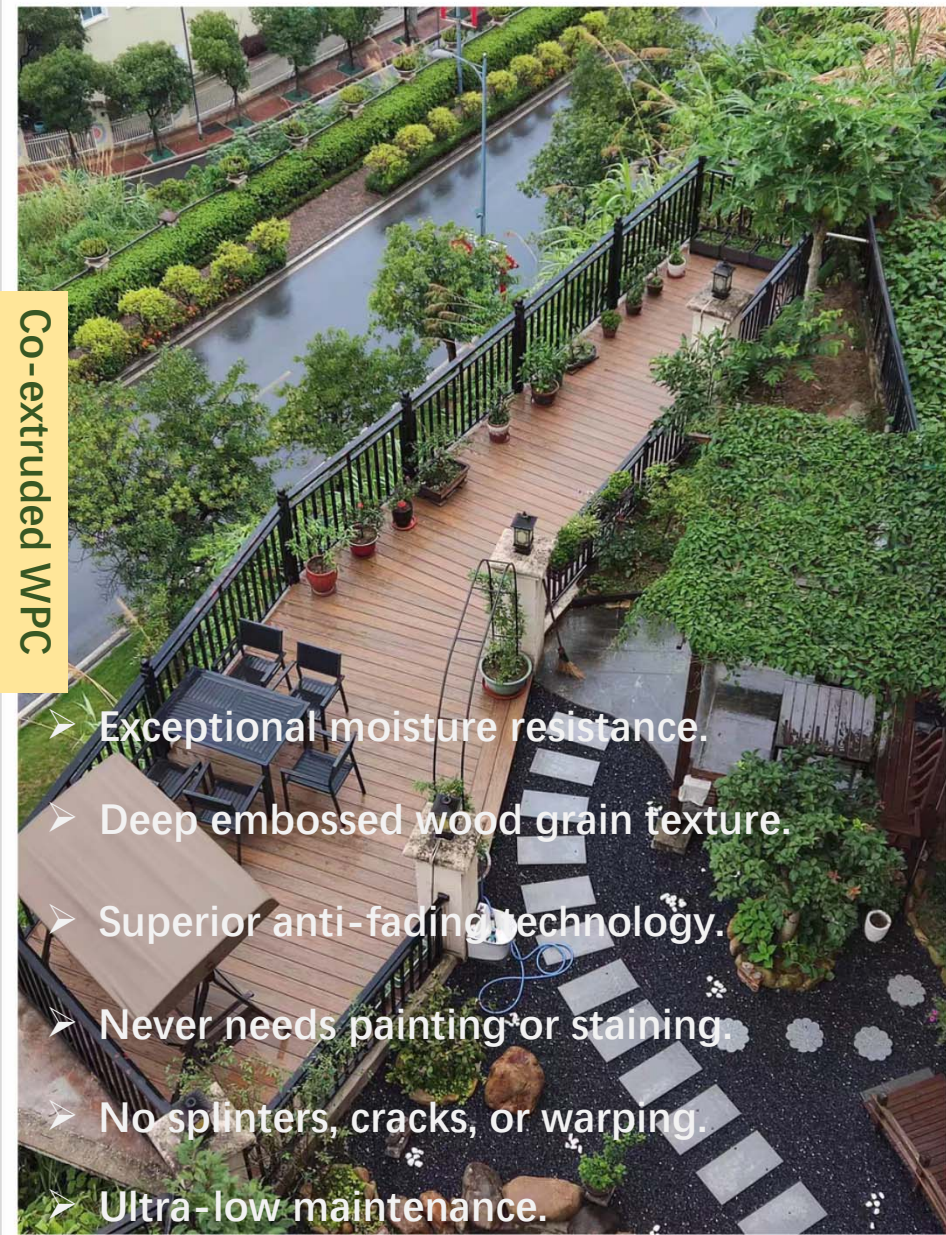

This is a great initiative to achieve two different colors on one board, and also different wood grain on some board.

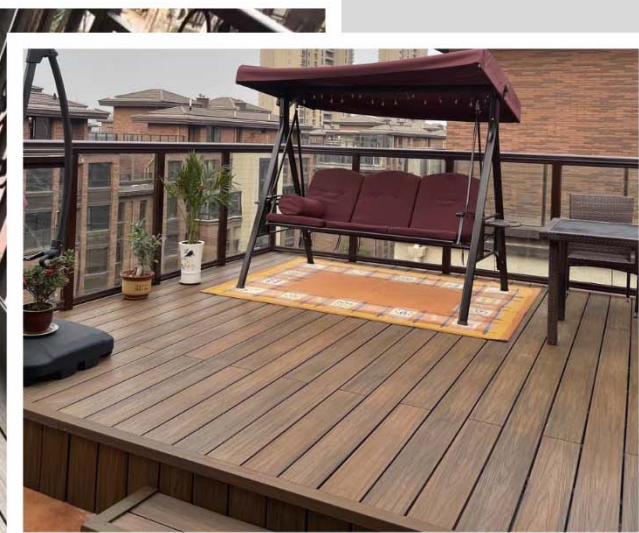

This greatly reduces the shopping time for final customers, and really makes consumption more interesting.

...
SUITABLE FOR FGCH21-145 AND SHCH22-140

Co-extruded WPC

- Exceptional moisture resistance.
- Deep embossed wood grain texture.
- Superior anti-fading technology.
- Never needs painting or staining.
- No splinters, cracks, or warping.
- Ultra-low maintenance.

Exquisite 3D WPC

**SUPER WOOD LOOK
WEAR-RESISTANT
ANTI-SLIP, EXQUISITE**

EXQUISITE 3D WOOD GRAIN BOARD uses deep embossing technology online to improve the anti-slip and surface hardness of traditional wood composite boards.

Because it has the effect of three-dimensional wood grain, which further improves the woodlook and makes WPC closer to nature. It is worth to possess.
